

Empowering Smart Buildings: Improving Productivity and Reducing Operational Costs

Join the Smart Buildings Center (SBC) for a breakfast event on October 26th from 7:30am to 9:30am in Seattle to discuss how the built environment can integrate smart buildings strategies to increase productivity, reduce costs, improve building operations, and support sustainable efforts for your organization.

This networking event will feature a variety of resource tools available at SBC as well as a facilitated panel discussion that highlights smart building technologies and practices and how this region is taking a leadership position in bringing these ideas to market.

The event is free and space is limited!

Industry Panel

- **Perry England**, VP Building Performance, MacDonald Miller
- **Chris Roe**, Energy Procurement Manager, Amazon
- **Cal Shirley**, VP Energy Efficiency Services, Puget Sound Energy
- **Bert Von Hoof**, Partner, GPM Azure IoT, Microsoft
- **Phil Welker**, Executive Director, PECl

October 26th, 7:30am to 9:30am

Smart Buildings Center

1200 12th Ave. S., Seattle, WA - 98144
