

HAPPY EARTH DAY!

The average BOC Credentialed Operator saves 100,500 kWh per year, that's equivalent to 71.2 Metric Tons of Carbon Dioxide. What does that impact look like?

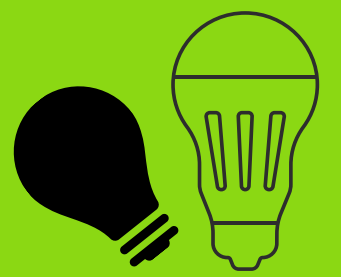

Tending a grove of 1,178 tree saplings for 10 years! Happy little trees...

Taking 16 gas-powered cars off the road for one year. The commuters thank you!

Switching 2,699 incandescent lightbulbs to LEDs. That's a bright idea!

It's also 14 homes worth of electricity usage!

Thank you for being part of our vision for a greener future!
